

If you're ready to grow with a growing company, come and see if our people are your people.

ABOUT THE OPPORTUNITY

We are an industry leader providing bushfire services to all states and territories across both the public and private sectors. We strive to integrate the latest bushfire science into our bushfire assessments, bushfire risk mitigation strategies, bushfire management plans and other services. This means we work on interesting projects, applying new/emerging tools and techniques, whilst delivering robust outcomes for our clients.

We are searching for a bushfire consultant to join our growing and talented bushfire team. If you have experience in bushfire consulting, management planning, risk mitigation, fire ecology, environmental planning, as a town planner or environmental consultant, or any other relevant experience, we would love to hear from you.

This role provides an opportunity to work with leading industry experts in bushfire management and planning, within a strong and collaborative team. We will support you to further develop your skill set and provide you with opportunities to broaden your expertise, while being supported by a team of approachable experts.

The role will include bushfire hazard and risk assessment, problem solving, communication with project stakeholders, site inspection, report writing, and tender preparation. You will work on a diverse range of projects and for a variety of government and private clients.

ABOUT YOU

To be successful you will have:

- A degree in Environmental Science, Natural Resource Management, Planning, or related field.
- A minimum of 2 years' relevant industry experience.
- Good technical report writing skills.
- Ability to undertake field-based site assessments.
- Understanding of relevant (NSW) legislation, codes, and standards.
- Excellent written and verbal communication skills.
- Experience working collaboratively with others.
- Sound critical thinking and problem-solving skills.
- Effective time management skills, to help you thrive in a busy consulting environment.
- Current driver's licence and ability to travel when required.

It'd be a bonus if you also have:

- Previous consulting and project management experience.
- Experience undertaking bushfire assessments and management plans.
- Practical operational or implementation experience.
- BPAD accreditation (or have completed the training required for accreditation).

If you are someone who can contribute and develop within a team of highly motivated and high-performing people, you'll fit right in.

WE WILL OFFER YOU

- We promote flexible and hybrid working options for all positions, whether it is a full-time position (38-hour week) or part-time position (24+ hours).
- We are Workplace Gender Equality Agency (WGEA) compliant, reviewing equality of pay across each role.
- We provide part-time positions equal opportunity in leadership positions alongside full-time positions and believe the number of hours worked in a week do not correlate with leadership ability.
- Technical training, support, and development.
- Progression opportunities.

You can view our company benefits on our [careers page](#), which includes attendance to our all of company conference in NSW, tailored professional development, paid study assistance and further education subsidy. And let's not forget the birthday leave benefit (that's right, you get an extra day off on your birthday)!

NEXT STEPS

If you are an Australian citizen or resident, are seeking a friendly and professional organisation where workplace culture is highly valued, and where you can further grow and develop with the support of industry experts, get in touch!

Please forward your application, including a brief cover letter telling us a bit about who you are, and why you'd be awesome in the role to our People and Culture team via recruitment@ecoaus.com.au

For further information about the position please contact Nathan Kearnes, Bushfire Team Manager, via nathank@ecoaus.com.au

Closing date: COB 13 February 2024

We can't wait to meet you!
