

# HANG WITH YOUR PEOPLE

## Who we are

Established in 2001 with ecology at our core, we have evolved into a national multidisciplinary environmental consultancy.

Eco Logical Australia (ELA), a Tetra Tech Company, is a team of over 200 approachable experts located in 16 offices across Australia.

## Our values

### Listen first

We listen to understand the bigger picture on each project.

### Share your genius

We work side by side with clients, helping to navigate environmental regulation.

### Be courageous

We are agile and innovative, ready to try new things and solve problems for clients.

### Feed the culture

We love what we do and continually support each other with our passions professionally and personally.

## Our services

Our approach combines sound scientific principles and strategic thinking with effective communication and integrity. We attract, train and retain quality staff to provide our clients with expert advice and service.
