

Senior Ecologist – Sutherland/Sydney

Do you love all things Green?

Then we want you!

Are you looking for somewhere to grow and develop your budding talents? This will be the opportunity for you!

ECO LOGICAL AUSTRALIA PTY LTD, is one of Australia's leading environmental assessment, strategic conservation planning and ecosystem management consultancies. In 2017 we continue to grow and build our business across Australia.

We believe that we make a significant contribution to improving environmental outcomes in Australia by delivering high quality consulting services that combine a landscape approach with sound scientific principles, strategic thinking, effective communication and integrity. We pride ourselves on a unique culture and place high emphasis on the recruitment of people who share our values of:

- ❖ Listen first
- ❖ Share your genius
- ❖ Be courageous
- ❖ Feed the culture

We have an exciting opportunity for **an experienced Senior Ecologist** to join our team of dynamic and highly respected environmental professionals.

You will primarily be involved in undertaking work on a variety of projects in the fields of environmental impact assessment, biobanking assessment, conservation assessment and project delivery. You will use all your great project management, and specialist technical skills to deliver high quality products to many clients. Additionally you will have opportunity to train junior staff and help build capacity in the Sydney Metropolitan Ecology team.

Ideally you will have:

- A degree or higher in Environmental Science or related discipline or substantial experience in lieu of higher graduate qualification;
- A high level of experience in botanical survey and assessment;
- An ability to classify vegetation types to industry standard classification systems;
- Experience in ecology and flora survey, preferably in Sydney Basin Bioregion;
- Exceptional written and verbal communication skills;
- Ability to build and nurture client relationships, manage simultaneous projects, work within a budget and meet deadlines;
- Practical and working knowledge and understanding of relevant NSW and Commonwealth legislation;
- The ability to undertake field survey in various environments;
- The ability to travel away from home for extended periods of time and;
- Current driver's license.

It's also desirable that you:

- Be an accredited biobanking assessor; and have
- An understanding of practical bush regeneration techniques; and
- GIS skills (preferably ArcGIS) for map production or spatial analysis.
- Consulting experience

In addition to the opportunity to work all over Australia on interesting projects with great clients, a fantastic culture and awesome work environment with like-minded colleagues, we can offer you:

- Study assistance (financial and time off)
- Flexible work patterns to balance work and family responsibilities
- Birthday Leave
- Generous paid maternity and paternity leave
- Professional development
- Opportunity to work with the best in industry

If this sounds like you and you are an Australian resident, are seeking a friendly and professional organisation where workplace culture is highly valued, please forward your application to Sue Nichols, Human Resources Manager via email: suen@ecoaus.com.au. For further information about the position, please contact Sue Nichols on 02 8536 85600.
