

## **Ecologists – Mudgee**

### **Family-and-lifestyle-friendly company is seeking those elusive Ecologists looking for a tree-change**

Would you like to:

- Expand your career horizons working with a team of expert consultants leading diverse and interesting ecological and multi-disciplinary projects?
- Live in one of the world's Top 10 emerging destinations (according to TripAdvisor) surrounded by amazing natural beauty, wineries, restaurants and an ever-exciting calendar of local events?
- Secure flexible work options and exceptional professional development opportunities?

#### **About the role:**

ECO LOGICAL AUSTRALIA, a Tetra Tech Company, is a leading environmental consultancy with a talented team of environmental professionals working across a range of disciplines.

With the continued success of our Mudgee office, we are looking for motivated and enthusiastic Ecologists to join the Mudgee team. You will have the opportunity to work on a broad range of projects, both around Mudgee and further afield, delivering innovative environmental management and conservation planning solutions to our clients, and to regional Australia. Our clients and projects are continually growing – particularly in the renewables and conservation sectors.

You'll have the opportunity to identify business opportunities, adding to our existing client base and pursuing passion projects. We will provide you with opportunities to develop your ecological expertise and broaden your project management experience while being supported by our team of approachable experts.

#### **About the location:**

The town of Mudgee, in Central West NSW, is a hive of cultural activity located only 270 km from Sydney. With beautiful heritage streetscapes surrounded by amazing national parks, Mudgee offers an exceptional lifestyle choice for those looking to escape the rat race. From museums and galleries to internationally renowned wineries and restaurants; from festivals to national sporting competition games, Mudgee is a welcoming country town with all the perks of a big city.

Our heritage listed office building on the main street of Mudgee offers beautiful views of the spring blossoms, surrounded by great coffee and lunch options! Our project locations are diverse; from the forests and creeklines along the Great Dividing Range, to the grasslands and deserts of the arid interior.

#### **About you:**

This role will allow you to combine your passion for ecology, botanical/zoological field experience,

legislative knowledge, exceptional writing and project management skills to create high quality project and environmental outcomes. The successful candidate will have:

- Tertiary qualifications in Environmental Science/Ecology or related discipline
- Ecological experience (preferably in NSW)
- Strong fauna and/or flora species knowledge and identification skills
- Working knowledge of NSW and Commonwealth environmental legislation
- Experience developing survey methods and plans
- Exceptional written and verbal communication skills
- Experience preparing a range of high-quality reports, such as impact assessments and management plans
- Current driver's licence.

It is also desirable that you have:

- BAM assessor accreditation
- Ecological consulting experience
- Project management skills and experience.

**We will offer you:**

The opportunity to shape your dream job, a competitive remuneration package, professional development and study leave, birthday leave, and health and wellbeing initiatives.

If you are an Australian resident and are seeking a friendly and professional organisation where workplace culture is highly valued, and where you can grow and further develop, please forward your application (including a cover letter addressing the above criteria) to Donna Barlow, HR Coordinator, via email [recruitment@ecoaus.com.au](mailto:recruitment@ecoaus.com.au) before close of business 12 August 2022.

For further information about the position, please contact Kalya Abbey, Operations Manager, Mudgee on 02 6378 2407.
