

## Hydrogeologists / Water Geoscientists - Brisbane

### About the Opportunity:

With the continued success of our **National Water Team**, we are looking for enthusiastic **hydrogeologists** or **water geoscientists** with an interest in tackling **groundwater challenges** to join us.

The role will primarily involve providing geoscientific and subsurface hydrological support and services to our Brisbane team with tasks including desktop and field data collection, contribution towards report writing, data interpretation and spatial mapping.

You will have the opportunity to work on a wide range of projects across Queensland and other parts of the country, delivering innovative **environmental and hydrogeological solutions** to a diverse range of projects and clients. We encourage employees to **rethink** traditional methods of data collection, interpretation, and project delivery, and develop novel solutions.

On a national level within the company, you will play your own unique part in helping us fulfil our company's **vision** of:

*“Leading with science, to inform critical environmental decisions, and deliver positive solutions”.*

### About you:

We know you are looking for a company where you can grow your passion for water and the environment, follow your purpose, and provide environmental solutions that make a difference. If you also love to **laugh hard and work hard** within a team of highly motivated and talented people, you'll fit right in.

To be successful, you will ideally have:

- A degree in geosciences or related disciplines with an emphasis on water resources.
- An advanced degree of understanding of the principles of groundwater bore drilling methods, bore design, logging, bore construction, contractor management, groundwater monitoring/sampling, field data collection and aquifer testing will be highly regarded.
- Sound communication and scientific writing skills.
- Ability to analyse and report on hydraulic and hydrochemical data.
- A current driver's licence and demonstrated safe driving record.
- Demonstrated experience to work collaboratively with others.
- A can-do attitude with the ability to problem solve.

*If you wish to work for ELA but feel that you may not meet all the criteria for this position, we encourage you to still get in touch. You may be a perfect fit for another role in our New South Wales or South Australian teams.*

## **We will offer you:**

We will discuss remuneration with you in person. In the meantime, you will be comforted to know we are Workplace Gender Equality Agency (WGEA) compliant, reviewing equality of pay across each role. We promote **flexible and hybrid working options** for all positions.

You can view our extensive company benefits at [www.ecoaus.com.au/careers](http://www.ecoaus.com.au/careers) , and be encouraged to know that we have a progressive, non-gendered, **12 weeks paid parental leave policy**. Oh, and let's not forget the **birthday leave benefit** (that's right, you get an extra day off for your birthday!).

## **...More than just an environmental consultancy**

Eco Logical Australia (ELA) exists to empower employees and clients to **make a difference**. We pride ourselves as being **Approachable Experts**, who lead with science and technology to help our clients navigate complexity, achieving the best possible outcome for them and for the environment.

We are one of Australia's leading environmental and conservation planning consultancies. Our **workplace flexibility** provides the opportunity to work anywhere in Australia, from our capital city and regional offices, to working from home. Our people are **industry leaders** – passionate, talented, and all-round nice people! We are proud of our standing within the Professional, Scientific, and Technical industry, reporting statistics higher than average on representation of women within our workforce (58%), with 40% of management positions being held by females.

Our commitment towards **Diversity, Equity and Inclusion** creates a place of belonging, and a safe workplace where people are respected for their contributions. This commitment builds on our company's foundational values of **Listen First, Share your Genius, Be Courageous, and Feed the Culture**. We offer part-time and flexible hours for any job opportunity to allow our people to live their best life.

That's what truly makes us... more than just an environmental consultancy.

## **Next steps:**

If you are an Australian citizen or resident, are seeking a friendly and professional organisation where workplace culture is highly valued, and where you can grow and further develop, get in touch!

Please forward your application, including a cover letter telling us a bit about who you are, why you'd be awesome in the role, and how you derive purpose and meaning from your work, to Donna Barlow, HR Coordinator, via email [recruitment@ecoaus.com.au](mailto:recruitment@ecoaus.com.au) by **Monday 15 August 2022**.

For further information about the position please contact Kelvin Olzard, Senior Principal Hydrogeologist at [kelvin.olzard@ecoaus.com.au](mailto:kelvin.olzard@ecoaus.com.au) or 0407 571 769, or Garry Davies at [garry.davies@ecoaus.com.au](mailto:garry.davies@ecoaus.com.au) or 0417 815 427 .

We can't wait to meet you!
